H1204 Bench Plane — Best size for smoothing boards straight and clean. Tempered tool steel cutter — fully adjustable for paper-thin or coarse shavings. 2 in. wide. Hardwood handle and knob shaped for firm, easy grip. 9 inches overall.

H1220 Block Plane — Handy for cutting end grain and planing small pieces. Tempered steel cutter adjustable endwise by means of lever. Cutter 1½ in. wide. Bottom and sides milled smooth. Hardwood knob.

H1270 Screw Drivers — Well made for farm and home use. Round tempered steel blades, regular tips. Fluted hardwood handles. 3, 4 and 6 in. blades.

H1297 Aluminum Level — Lightweight, rigid, warp-proof. Four plumb and two level glasses protected by heavy glass covers. Top and bottom milled parallel. 24 in. long.

H1222½ Combination Square — Compact, multi-purpose tool — use as try and mitre square, level, marking gauge, etc. Grooved steel blade graduated in 8ths, 16ths and 32nds. Level glass and pin-type scribe in machined handle. 12 in. blade.

H1294 Level — Seasoned pine, natural finish. Clear fluid plumb and level glasses. Handy grip on both sides. 24 in. long.

299 Knife — Used to cut wallboard, paper, cardboard, auto-top and upholstery material. Light weight aluminum with hang hole. Magazine handle holds 5 razor-edge blades and blade guard. 5½ in. long. Extra blades, five in a box.

3008 Screw Driver — Alloy steel bar firmly anchored in two-tone plastic handles, fluted for comfortable grip. Cabinet tip. Round bar.

111½ Nail Hammer — Drop forged head with curved claws, beveled to grip and pull nails. Straight grain hickory handle securely wedged in head. 16 oz. size.

0310 Ball Pein Hammer — Head forged from high grade steel, heat-treated to make a tough hammer. Straight grain hickory handle. 16 oz. size.

133H Spiral Screw Driver — For fast driving and drawing of screws. Sturdy ratchet action. ¼ in. screw driver bit furnished with tool.

1206W "Pull-Push" Rule — "D" shape die-cast case chrome plated. Big black numbers on white blade easy to read. Blade rigid for measuring straight, flexible for curved surfaces. (1208W — 8 ft. blade)

H432 Saw Set — For setting back and panel saws, 5 to 11 points to an inch. Tool steel plunger and anvil. Malleable iron handle, steel lever.

H1214 Hand Drill — Smooth running gear and single pinion. All-steel frame. 3-jaw steel chuck, ¼ in. capacity. Hardwood handle.

1247½ Breast Drill — Sturdy tool for heavy drilling. All-steel frame. Three-jaw chuck takes round shank twist drills up to ½ inch. Two speeds. Smooth running gear and pinion.

700 Woodworker's Vise — Can be carried to the job. Will clamp on bench, sawhorse or stairs. "L" shaped jaws hold work firmly—horizontally as well as vertically. Jaws open 3½ in.

116 Mitre Box — Strong and sturdy. Panel saw can be used to cut boards up to 2½ in. Index plate marked for angles from 0 up to 50 degrees. Hard wood board with pressed metal back, saw guide and index plate.
